CORPORATE

Capability Statement

Building Businesses. Empowering Growth. An enterprise consulting group across technology, workspaces and governance.

GROUP OVERVIEW

— SJAIN is an enterprise consulting group established in 2009, operating three specialist companies under one accountable partnership: SJAIN Tech, SJAIN Spaces and SJAIN Governance.

— Clients engage a single group team that owns strategy, delivery and assurance across technology, workspace and governance workstreams.

CORE CAPABILITIES

- Applied AI, automation and enterprise software engineering.
- Cloud, data platform and managed technology operations.
- Workspace strategy, interior design and turnkey fit-out delivery.
- Compliance, risk, internal controls and virtual CFO advisory.
- Integrated programme governance across all three disciplines.

DIFFERENTIATORS

- Practitioner-led delivery — senior people remain on the engagement.
- Evidence-based recommendations with measurable baselines.
- One roadmap, one accountable owner, three specialist capabilities.
- Regulated-sector delivery experience across 22 industries.

ENGAGEMENT MODELS

Advisory retainer, fixed-scope programme, managed service and integrated transformation mandate.
